Magistrate Hause Made a Spe cialty of This Line.

REPUBLIC SPECIAL.

Jeffersonville, Ind., May 24.—Jeffersonville's two one-legged magistrates, John H. Hause and James B. Prewitt, celebrated their birthday to-day.

Magistrate Hause has been in office since 1822, since which time he has joined the destinies of more than 7,000 eloping couples, nearly every one of whom came from Kentucky.

It is related of Magistrate Hause that he can stand on the river front and spot eloping couples on the ferryboat as they cross from Louisville. At any rate, he gets the business, even though he may hustle for it. Magistrate Prewlit served in the Civil War, in a Kentuckian regiment. He came to Jeffersonville in 1867. He is a magistrate and while he will not decline a marriage fee he does not hustle for that class of business.

TRAGEBY CAUSED BY A WOMAN'S GOSSIP.

Murder and Suicide Result From Interference With the Course of True Love.

LEFT NOTHING FOR THE LAW.

Crazed Lover, After Killing the Woman Whom He Blamed for His Troubles, Shot Himself.

REPUBLIC SPECIAL. Laurel, L. I., May 24.-William Woodhull, 26 years old, son of Zophar Woodhull, a wealthy farmer, deliberately murdered Miss Martha Williamson, 45 years old, the close personal friend of his mother, at 11:30 o'clock last night and then killed himself. The murder is attributed to temporary in-

sanity, caused by a love affair. Wedding Stopped by Interference. Woodhull was some time ago engaged to e married to Miss Delsie Newton, a pretty girl of Sayville and a friend of the Wil-liamsons. Woodhull's people interfered and, after the wedding arrangements had been made, the engagement was broken. Miss Newton brought suit for damages for breach of promise and the case was settled

breach of promise and the case was settled by payment of money by Woodhull.

Threat Followed Gossip.

The affair seemed to unbalance the mind of young Woodhull. A few days ago he accused Miss Williamson of circulating false stories about him, and said:

"If you don't stop this thing I will shoot Springfield, Ill., May 24.-State and milltary officials and personal friends are making arrangements for a funeral service for the late Governor Tanner befitting the

eminence of the decedent. All arrangeyou."

Last night Miss Williamson and her brother drove to Southold to attend a W. C. T. U. convention. Returning at 11:30 o'clock she got out at the house and he drove on to the barn. Hearing a pistol shot, Mr. Williamson returned to the front yard, where he stumbled over the dead body of his sister. Powder marks were on her face. The ball had entered her brain and death was instantaneous.

Prescribed His Own Punishment.

A posse was formed and the Woodhull day.

Upon invitation of Governor Yates a meeting was held at the Executive Mansion this morning, at which representatives of all the State departments, county and city governments, the G. A. R., and other patriotic and civic societies were represented. Committees were appointed to take charge of different divisions of the funeral procession.

A posse was formed and the Woodhull house visited. Woodhull's room was broken into and he was found in bed fully dressed, with a bullet bold in his right temple and a revolver lying on the bed. The only cause for the murder is said by the family to have been temporary insanity. The two families had been great friends. gented. Committees were appointed to take charge of different divisions of the funeral procession.

The funeral will be military in character. The body will be taken from the home of Turney English, Mrs. Tanner's father, Sunday morning, escorted by the Fifth Infantry, I. N. G., a section of the artillery and Cavairy Troop D of this city. In the rotunds of the Capitol building the body will rest in state until the time to depart for the services at the church.

The funeral is set for 2 o'clock at St. Paul's Pro-Cathedral. Owing to the limited capacity of the church it will be reserved for the family and the distinguished citizens of the State. It is expected to have the procession to Oak Ridge Cemetery started by 3:39. Adjutant General Reece will be the marshal in command of the entire cortege, and Brigadier General Horace S. Clark of Mattoon will command the division of soldlery.

The recommendation was the result of a controversy that has arisen in Clayton over the Courthouse printing. Several Courthouse officials are, it is said, stockholders in one of the Clayton papers, and the proprietors of the other papers have been complaining that they were the victims of official favoritsm.

Another recommendation of the jury was that 2½ per cent of the general fund be set aside hereafter for the building of an addition to the Courthouse. It states that the present facilities are inadequate.

The final report was made to Judge Mc-Eihinney after the jury had been in session nine days and had examined ninety-five witnesses.

HAIL AND WIND RUIN CROPS.

Damage by Storm in St. Louis County Estimated at \$25,000.

The hall and windstorm that swept over Hollow, St. Louis County, Thursday afternoon, caused damage estimated at \$25,000.

The wheat, peach, corn and oats crops of The wheat, peach, corn and oats crops of about seventy-five families, living on the Manchester road near Hollow, were totally destroyed. The hall that fell was as large as hen's eggs. The wheat was all headed and would have been ready for harvesting in a fortnight. The hall beat the stalks flat on the ground and cut off at least 75 per cent of the heads. The oats crop was not so far advanced and half of it may be saved, but the early corn will have to be replanted.

replanted.

The peach crop in this section was also totally destroyed. The trees were full of fruit, but it was all knocked off by the hall. On the younger trees the limbs were broken so badly that the trees will have to be cut down.

Habeas Corpus Proceedings for Possession of Boy Dismissed.

N., from duty on the U. S. S. Wampatuck and assigning him to special duty at the Nautical training school, Manila.

Lieutenant Knapp is well known in St. Louis. His new duties are said by the Navy Department officials to be especially important, and that he has been selected for this work because of experience in investigating and correcting irregularities at several of the navy yards.

There has been much trouble with the management of the Manila nautical school, and Lieutenant R. H. Townley, retired, has been relieved from duty there.

Lieutenant Knapp is ordered to proceed to Manila at once. The habeas corpus proceeding brought by William Wessells and his wife for the possession of John Wessells, the 13-yearold nephew of Mr. Wessells, was dismissed old nephew of Mr. Wessells, was dismissed in Division No. 5 of the Circuit Court yesterday at the request of Louis A. Steber, the petitioners' attorney.

The boy testified that his uncle, William, scarcely ever spoke to him, except to reprimand him, and that his uncle's wife spoke unkindly of his mother. He cried while testifying.

Mrs. Wessells, after conferring with her husband, spoke to Attorney Steber, who said to the Court that the statements of the boy were revelations to Mrs. Wessells and that the proceedings would not be further pushed. If the boy should be in need of a home, however, the attorney stated, he would be welcome at this uncle's house. The boy is living with his aunt, Mrs. Frank Kelber.

FINE WEATHER HELPS EISTRIBUTION.

General Situation Still Largely a Favorable One-Effect of Strike Is Minimized.

New York, May 24.-Bradstreet's to-morrow will say:

New York, May 24.—Bradstreet's to-morrow will say:

The general situation is still largely a favorable one, the primary encouraging features being the fine outlook for the country's crop. General distribution, retarded hitherto by the backward spring, has been stimulated by warm, gunny weather, industrial conditions head the list of disturbing features, but conditions are greatly as the largest number of men idle for several years past has been apparently minimized.

The reports as to quiet trade in tron and steel come from the East, where demand for pix iron is of a hand-to-mouth character. No special activity is looked for, however, in this branch, because large consumers are well supplied. Indeed, Pittsburg furnaces are booked well into July. The demand for finished goods is as heavy as ever, structural materials, bars and plates being in especially good demand, with premiums paid for quick delivery, and a large new business not accepted, because of the inability of manufacturers to promise immediate shipments. The only accumulation noted in pix iron is in the lower foundry grades, and this is especially notable as regards the Southern product. Good reports come from the Western hardware trade, the demand in building lines and for barbedwire fetcing being especially active. Anthrucite coal notes much strength, and demand is good of the question. The Southern coal trade is quester.

The boot and shoe and allied trades note con-

markets.
Such unanimity as to good crop reports has Such unanimity as to good crop reports has rarely been seen at this period of the year. Much was made in speculative grain circles of dry weather in the Northwest, but recent rains have placed that section in favorable condition as regards the spring wheat. From the winter wheat belt reports continue very optimistic, especially favorable advices being received from Kansas, which promises a yield of 100,000,000 bushels, and the only anxiety expressed is for a sufficient supply of labor to harvest the enormous crop. Recent rains, while retarding retail trade, have helped the corn and oat crops.

The feature of the week in textiles is a perenormous crop. Recent rains, while retarding retail trade, have helped the corn and oat coross.

The feature of the week in textles is a percentible improvement in the tone of most cotton goods, which are in rather better demand at long goods, which are in rather better demand at long sods, which are in rather better demand at long better markets. This, of course, does not opply cossive stocks, curtailed production and of goods selling below cost in many instances.

Export shipments of cotton goods are heavy, although new business is lighter. Raw cotton is a fraction higher on the week, but outside interest is still small, and the fear of a corner in July deters operations in that and other old-crop months. There is more doing in new wool at all markets, and manufacturers remain hopeful, although new demand for goods is still disappointing. Especially good advices come from wholessiers and jobbers in silks, and the raw-silk market tends higher on better demand.

Wheat including flour, shipments for the week aggregate 4,785,984 bit. against 3,984,963 bit. (corrected) last week, 2,895,995 bit. in the corresponding week of 1990, 2,198,219 bit. in 1899, and 4,209,123 bit. in 1898, From July 1 to date this season wheat exports are 190,084,662 bit. against 17,525, 566 bit last season and 200,894,175 bit. in 1895, 99.

Corn exports for the week aggregate 2,204,902 bit. against 2,049 bit. (corrected) last week and 4,374,145 bit. in 1898.

From July 1 to date this season corn exports are 163,584,762 bit., against 190, Canadian failures number 24, against 28 last week, 17 in this week a year ago, 138 in 1898.

weekly review of trade to-morrow will say: The labor situation is the cloud hovering over the business world, but the difficulties are not sufficiently widespread at present to seriously interfere with the progress of manufacture and distribution. Some settlements of strikes have been effected during the week, and others seem probable at an early date. Meanwhile, prices hold firm, the capacity of producing plants in the leading industries is well employed and crop advices are satisfactory.

A feeling of confidence in the permanence of values appears to have settled in all divisions of the iron and steel manufacture. To this may be attributed the decrease in orders for distant delivery, purchasers merely contracting for their requirements for one to two months in advance. Tranquillity regarding the future is undoubtedly due to the action of the large combination, which has made no effort to secure exorbitant prices, but manifests an intention to maintain quotations at the current level.

Independent producers show a disposition to work along the same lines and then realize. There is less scrambling to get orders placed, but no indication that the actual demand is any smaller. Notwithstanding much talk of duliness of pig iron, Bessemer is firmly held at 18. To delivered at Pittiburg or 316 at valley furnaces. Foundry irons are somewhat easier. All lines of ninished steel are crowded to the limit of productive capacity, and machinary houses at Chicago are granting machinase emands rather than itself and the serious interruption to business.
